

ASX ANNOUNCEMENT

15 January 2025

JACKSON 31 DRILLING UPDATE GALACTICA PROJECT

Highlights

- Site works at the Jackson 31 and Jackson 04 helium wells are complete.
- All casing has been delivered to site.
- The drilling contractor is preparing to mobilise the rig to Jackson 31 and spud is expected next week.

Blue Star Helium (ASX:BNL, OTC:BSNLF) is pleased to provide an update on drilling activities at its Galactica helium project in Las Animas County, Colorado.

All site works have been finalized at the Jackson 31 SENW 3054 and Jackson 04 L4 3154 development well locations. All casing has been delivered to site and the drilling contractor is preparing to mobilise equipment and rig up at Jackson 31 early next week, with drilling expected to commence immediately after the rig is in place.

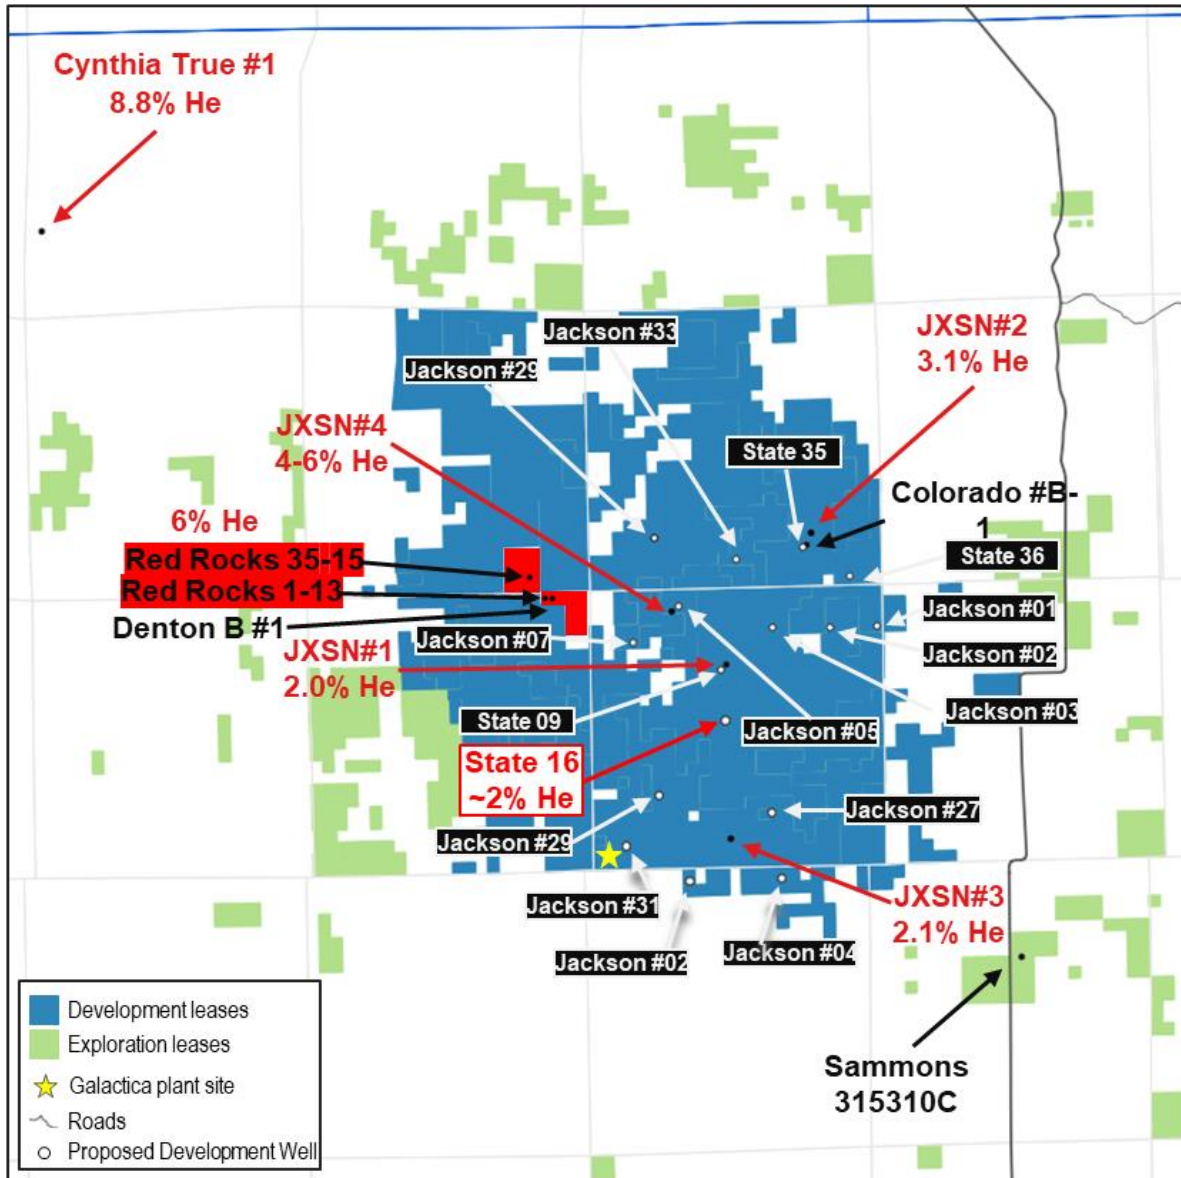

Upon completion of drilling at Jackson 31, the rig will move to Jackson 04. This drilling campaign includes three additional approved wells, with the drilling sequence to be confirmed after Jackson 04 is drilled.

This ASX Announcement has been authorised for release by the Board of Blue Star Helium Limited.
